Beautify your yard and save energy from Alliant Energy-sponsored residential tree distribution. Trees retail for \$75 or more, but Alliant Energy customers can purchase them for just \$25 each, thanks to a grant from Alliant Energy!

Properly placed trees shade your home in summer and block the wind in winter. Advance purchase is recommended. You may order up to two trees. **You must pick up your tree(s) on Saturday, April 30 between 8:30am and 10:30am at Pioneer Ridge Nature Center (1339 US Highway 63, Bloomfield).** Any trees not picked up by 10:30am on distribution day will be considered a donation to the Wapello County Conservation. In the event that unsold trees are available on distribution day, they will be released for purchase at 8:30am on a first-come, first-served basis or until all trees are sold.

Trees are non-refundable, exchange cannot be accepted, and plant material is under no warranty and/or guarantee. For maximum energy savings, plant shade trees within 30 feet of the east and west of your home, Plant evergreens as a windbreak on the north and west of your home. Contact Iowa One Call at 1-800-292-8989 or iowaonecall.com at least two business days before you dig. They'll send someone to locate underground utility lines for you. This is a free service.

Attend a short, free workshop to learn the best way and place to plant a tree. The workshop begins at 9:30am on pickup day. Register by emailing gabriele.edwards@dnr.iowa.gov.

There are 250 trees available for purchase. Shade trees are 5-8 feet tall in 7- to 10-gallon containers. Conifers and ornamentals are 3-5 feet tall in 5- to 7-gallon containers. Consider the location and mature height of the tree species so you don't plant a tree that could interfere with power lines.
